Students requirements

No Spanish knowledge required, program taught completely in English
In all UANDES international programs, Chilean students participate actively. This means, students from abroad will share with Chilean peers during all classes and activities. We

believe this is a good situation for both ends, as international students are enriched with Chilean culture through our students and, on the other hand, UANDES students can practice their English and have an international experience on campus.

Participants:

Students from Universidad de los Andes and from Universities from all around the world College London are registered in the program.

Lectures / Activities

The students will participate in lectures and activities that will introduce them into the Chilean and Latin American Culture, Politics and Economics. There will be a combination of lectures with other international and Chilean students, and some will be only for them. The cultural activities, both in and off-campus will be with Chilean students from the International Student Association (ARI) and students from different course backgrounds that will also attend the classes.

Daily activities:

The three weeks will have normally lectures during the morning at UANDES, and optional extra-curricular activities during the afternoon. In some days there are going to be cultural trips within Santiago to visit downtown, cultural activities or others suggested by the same students, according to their academic or personal interests.

During the afternoon, students normally have free time, but we will have a student coordinator who will organize optional activities for each weekday. During weekends, the group will have free time for personal time.
